

Strategies for Teaming with Families in the Process of PBS

1. Review process with family using question and answer sheet on PBS.
2. Ask family to provide observation information.
3. Interview family in Functional Assessment process.
4. Identify problem behavior situations/functions that are similar across home and child care.
5. Share hypotheses and draft support plan with family; encourage their support and ideas.
6. Develop a simple plan for home implementation.
7. Provide family with success stories.
8. Encourage families and praise them for their efforts and progress.
